

# RockHound Rock Tough Tiller

The Rock Tough forward and reverse tine tiller is a great general purpose tool for your collection. The skid steer mounted attachment makes Seedbed preparation in basic gardening or lawn/landscaping a breeze. Small enough to be used in residential applications, reliable enough to be used in commercial gardening or landscaping jobs.

## Performance

Robust and easy to use the Rock Tough Tiller comes in three sizes 6, 5, and 4 footer. Standard with low speed high torque hydraulic motor as well as a high torque chain system. This tiller has a working depth of 8 inches and a hydraulic flow rate of 10 to 20 gpm.
